

Course Directive
ID511001: Programming 2
Semester One, 2026

Course Information

Level:	5
Credits:	15
Prerequisite:	ID510001: Programming 1
Rōpū Mangu Timetable:	Tuesday 1:00 PM D207 and Thursday 1:00 PM D207

Teaching Staff

Name:	Rachel Trounson	Grayson Orr
Position:	Senior Lecturer	Principal Lecturer and Second/Third-Year Coordinator
Office Location:	D316a	D309
Email Address:	rachel.trounson@op.ac.nz	grayson.orr@op.ac.nz

Course Dates

Term 1 (7 weeks):	23 rd February – 10 th April
Mid-Semester Break:	11 th April – 27 th April (including Anzac Day 27 th April)
Term 2 (9 weeks):	28 th April – 26 th June

Orientation	23 rd February
Graduation	13 th March
Otago Anniversary	23 rd March
Easter	3 rd – 7 th April
Anzac	27 th April
King's Birthday	1 st June

Public Holidays and Anniversary Days

A list of public holidays and anniversary days can be found here - <https://www.op.ac.nz/students/importantdates>

Aims

To enable learners to build simple object-oriented (OO) applications and to identify situations that are most appropriate for OO implementation.

Learning Outcome

At the successful completion of this course, learners will be able to:

1. Build interactive, event-driven GUI applications using pre-built components.
2. Declare and implement user-defined classes using encapsulation, inheritance and polymorphism.

Assessments

Assessment	Weighting	Due Date	Learning Outcomes
Project 1	35%	Sunday 10 th May at 11:59 PM	1, 2
Project 2	35%	Sunday 21 st June at 11:59 PM	1, 2
Examination	30%	Thursday 21 st May from 1:00 PM – 2:45 AM	1, 2

Grade Table - Criterion Referenced

Grade	Mark Range
A+	Met all course requirements-mark in range [90-100]
A	Met all course requirements-mark in range [85-89]
A-	Met all course requirements-mark in range [80-84]
B+	Met all course requirements-mark in range [75-79]
B	Met all course requirements-mark in range [70-74]
B-	Met all course requirements-mark in range [65-69]
C+	Met all course requirements-mark in range [60-64]
C	Met all course requirements-mark in range [55-59]
C-	Met all course requirements-mark in range [50-54]
D	There at end. Did not meet course requirements. Mark in range [40-49]
E	There at end. Did not meet course requirements. Mark in range [0-39]

Resources

Software

This paper will be taught using **Microsoft Visual Studio**. An installer for **Microsoft Visual Studio** is available - <https://visualstudio.m> Please refer any problems with downloads or installers to **Rob Broadley** in D205a.

Readings

No textbook is required for this course. URLs to useful resources will be provided in the lecture notes.

Provisional Schedule

Week	Topics
1 : Tahī	GitHub and C#
2 : Rua	Arrays, Lists, Dictionaries and LINQ
3 : Toru	Windows Forms Application
4 : Whā	Classes, Objects and Encapsulation
5 : Rima	Abstraction, Inheritance and Polymorphism
6 : Ono	Interfaces and Enumerations
7 : Whitu	Debugging and Unit Testing
Mid Semester Break	
8 : Waru	Timer Control and Graphics Class
9 : Iwa	Key Events and Sound
10 : Tekau	Practice Exam
11 : Tekau mā tahi	Theory Exam
12 : Tekau mā rua	Assessment Work
13 : Tekau mā toru	Assessment Work
14 : Tekau mā whā	Assessment Work
15 : Tekau mā rima	Assessment Work Due
16 : Tekau mā ono	Catch Up Week

Course Requirements and Expectations

Learning Hours

This course requires **150 hours** of learning. This time includes **64 hours** directed learning hours and **86** self-directed learning hours.

Criteria for Passing

In order to pass this course you must achieve the following:

- You must achieve a final grade of C- or better (50% course score)
- There must be a genuine attempt at all assessments

There are no reassessments or resits.

Attendance

- Students are expected to attend all classes, both lectures and labs.
- If you miss a class, you will need to get notes from another student.
- If you cannot attend, please contact your lecturer.
- You must turn up ready for assessments on the due date and at the correct time. Special arrangements must be organised and approved prior to the assessment. If you do not turn up, you have failed the assessment.

Communication

Microsoft Outlook/Teams are the official communication channels for this course. It is your responsibility to regularly check **Microsoft Outlook/Teams** and [GitHub](#) for important course material, including changes to class scheduling or assessment details. Not checking will not be accepted as an excuse. You can manage your email at the Student Hub and download the instructions for forwarding your email at <http://www.op.ac.nz/students/student-hub/>

Snow Days/Polytechnic Closure

In the event **Otago Polytechnic** is closed or has a delayed opening because of snow or bad weather, you should not attempt to attend class if it is unsafe to do so. It is possible that your instructor will not be able to attend either, so classes will not physically be meeting. However, this does not become a holiday. Rather, the course material will be made available on [GitHub](#) for classes affected by the closure. You are responsible for any course material presented in this manner. Information about closure will be posted on the **Otago Polytechnic Facebook** page <https://www.facebook.com/OtagoPoly>.

Group Work and Originality

Students in the Bachelor of Information Technology degree are expected to hand in original work. Students are encouraged to discuss assignments with their fellow students, however, all assignments are to be completed as individual works unless group-work is **explicitly** required (i.e. if it doesn't say it is group-work then it is not group-work – even if a group consultation was involved). Failure to submit your own original work will be treated as plagiarism.

AI Tools

Specific guidance will be provided for each course assessment specifying permitted Gen-I use and consequences for misuse.

Students must:

- Follow any course-specific Gen-AI guidelines and [Academic Integrity policy](#)
- Understand that AI outputs can be biased or fabricated
- Verify all AI-generated content against reliable sources
- Take full responsibility for any errors
- Know which assessments permit Gen-AI use and understand that unauthorised use constitutes academic misconduct
- Acknowledge what AI tool you have used. In the assessment's repository **README.md** file, please include what prompt(s) you provided to the AI tool and how you used the response(s) to help you with your work

Referencing

Appropriate referencing is required for all work. Referencing standards will be specified by the teaching staff.

Plagiarism

Plagiarism is submitting someone else's work as your own. Plagiarism offences are taken seriously and an assessment that has been plagiarised may be awarded a zero mark.

Submission Requirements

All assessments are to be submitted by the time, date, and method given when the assessment is issued. Failure to meet all requirements will result in a penalty of up to **10%** per day (including weekends).

Extensions

Familiarise yourself with the assessment due dates. Extensions will **only** be granted if you are unable to complete the assessment by the due date because of **unforeseen circumstances outside your control**. The length of the extension granted will depend on the circumstances and **must** be negotiated with the course lecturer before the assessment due date. A medical certificate or support letter may be needed. Extensions will not be granted for poor time management or pressure of other assessments.

Impairment

In case of sickness contact the teaching staff or **Head of Information Technology (Michael Holtz)** as soon as possible, preferably before the assessment is due. The policy regarding the granting of a mark that considers impaired performance requires a medical certificate and a medical practitioner's signature on a form.

Appeals

If you are concerned about any aspect of your assessment, please approach the teaching staff in the first instance. We support an open-door policy and aim to resolve issues promptly. Further support is available from the **Head of Information Technology (Michael Holtz)** and **First-Year Coordinator (Elise Allen)**. **Otago Polytechnic** has a formal process for academic appeals if necessary.

Other Documents

Regulatory documents relating to this course can be found on the **Otago Polytechnic** website.
